

REMARKS

Claims 1 – 29 are pending in this application. Claims 1 and 2 are amended to require the presence of a polyoxyalkylene-modified organopolysiloxane having 2 or 3 alkylene carbon atoms. Support for this amendment can be found through the specification, for example at page 4, line 35 and at page 5, lines 5 – 7. Dependent claim 3 is amended merely to comport with the amendments to claim 1. Finally, claims 6 – 8 are amended only to remove linguistic ambiguities with respect to the required presence of a polyoxyalkylene-modified organopolysiloxane having 2 or 3 alkylene carbon atoms.

The foregoing amendments introduce no new matter. Accordingly, Applicants respectfully request the Examiner to enter the amendments.

Applicants now await an early and favorable examination on the merits. If the Examiner feels that a telephone interview would advance the prosecution of the present application, she is courteously invited to contact the undersigned at the number below.

Respectfully submitted,

Date June 20, 2003
